

JACKSON TOWNSHIP

Request for Septic Tank Pumping Interval Extension - 3 to 6 years On-Lot Sewage Disposal System Management Ordinance of Jackson Township

Ordinance No. 164-05, Section 99-32-C Maintenance Provides as follows:

The Township Sewage Enforcement Officer may allow septic tanks to be pumped out at less frequent intervals when the owner can demonstrate to the Township Sewage Enforcement Officer that the system can operate properly without the need for pump-out for a period longer than three (3) years. In no case shall such period extend beyond six (6) years. Such a request may be made after the initial pumping and inspection. Requests must be in writing with all supporting documents attached and submitted to the Township for due consideration by the Township Sewage Enforcement Officer. In the event the Township's Sewage Enforcement Officer approves such extension the property owner shall be responsible to notify the Township's Sewage Enforcement Officer of any change in the conditions upon which the extension was based.

In making its determination, the Township Sewage Enforcement Officer shall take into account the sewage permit issued by the Township Sewage Enforcement Officer upon installation or rehabilitation of the system, reports of inspection and maintenance of the system, and other relevant information and may conduct an on-site inspection. The applicant shall bear the cost of any inspection (surface or subsurface) and any soil or waste sampling conducted for the purpose of evaluating the request. The applicant shall receive a decision within sixty (60) days of accumulation of all necessary information by the Township Sewage Enforcement Officer.

Property Owner: _____

Address: _____

Tax Map/Parcel I.D. _____

How many people live in the residence? _____

OR for (non-residential uses)
